PROFESSIONAL EXPERIENCE

2021 – Today **powercloud GmbH, Leipzig**
Scrum Master / Agile Coach

The powercloud GmbH has been offering an open SaaS solution under the same name for the energy industry since 2012. powercloud handles the processing and billing of electricity, gas, heat and water for over 8 million end customers and another 17 million end customers in migration. As a Scrum Master it is my responsibility to lead the whole organisation into agile self-organisation. I support the Scrum- and Kanban development teams, the management as well as other supporting departments and therefore create the needed environment. With trainings and continuously reflecting actions within the teams I teach the agile mindset and push the agile transformation. I am transitioned to an Agile Coach in May 2022.

2018 – 2020 **Appsfactory GmbH, Leipzig**
Project manager & Teamlead

Appsfactory is one of the fastest growing mobile agencies specialized in the development of apps. Since launching in October 2009 the company realized over 600 software projects for more than 30 clients. At Appsfactory I am responsible for a team of 12 employees, including iOS-, Android- and .net developers, quality consultants and UX/UI-designers and already worked for various clients such as Daimler, Vattenfall, Vonovia, Flaschenpost or Beurer.

2013 – 2018 **Die Coder GmbH, Leer**
Founder & Chief Executive Officer

The "Die Coder GmbH" is developing individual business-, mobile- and web-based applications to optimize and display internal business processes on mobile devices. Software from Die Coder is used by multinational corporations within the car- and tire industries and textile retail trade companies among others. As founder I started on developing these applications on my own, but got into the human resources, product- and projectmanagement as the company grew. I left the company on my own wish in 2018 and sold my shares to my cofounder, who later merged with WW Consulting GmbH and closed the company.

2012 – 2013 **neusta Destination.Solutions GmbH, Bremen**
PHP Developer

2010 – 2012 **BestSearch Media GmbH, Potsdam**
PHP Developer

2006 – 2013 **Internetprojekte markus.gubitz, Leer**
Freelancer
